

# ReVireo

## 1928 15th Street SE

### Overview

ReVireo worked with Mi Casa on developing a single-family home, 1928 15th Street SE, in Washington, DC. Mi Casa is a developer focusing on affordable housing in underserved communities across Washington, DC, Maryland, and Virginia.

ReVireo guided Mi Casa through ENERGY STAR Homes and DOE Zero Energy Ready Homes (ZERH) certifications. ReVireo provided energy modeling services for energy code compliance, design consulting, and certification management services. ReVireo went to the project site and performed all required inspections and verification services to ensure compliance with the certifications' standards.

ReVireo's services significantly increased the project's energy efficiency, reducing operating costs and improving occupant comfort and health.
