

ReVireo

River Pointe by Del Webb

Overview

River Pointe by Del Webb III (Division of PulteGroup) is an active adult community located in Manchester, New Jersey. River Pointe is made up of single-family homes in a resort-like community setting approximately less than a half hour from the beach in Ocean County. All the homes built in this community have achieved or will achieve ENERGY STAR certifications.

The homes at River Pointe were able to qualify and receive the ENERGY STAR certifications because of the direct collaboration and true partnership between Pulte Group and ReVireo. ReVireo's consulting team, project managers and inspectors worked closely with both the corporate and field management teams at PulteGroup to make this goal a reality. ReVireo diligently consults on each unit and handles all rebate application management with the New Jersey Clean Energy Program from permitting stage of each unit through the end of construction. The homes are not only awarded the prestigious ENERGY STAR certification, the builder was able to receive a rebate for building to this level of energy efficiency.
