

# ReVireo®

## Ingrassia Residence

### Overview

This high-performance home was constructed in Watchung, NJ. The project pursued multiple energy efficiency and environmental quality certifications, including ENERGY STAR, National Green Building Standard, and LEED for Homes.

ReVireo designed and implemented a customized package of services meant to ensure that all three certifications were successfully earned. The services ReVireo provided include HVAC manual calculations, energy modeling, environmental building consulting, technical training, a number of different inspections and testing, as well as incentive maximization and processing.

*"It has been a pleasure working with ReVireo on our new home building project. ReVireo is very responsive whenever we call. We really appreciate the personal attention to detail and taking the time to educate our building team. We highly recommend this company for great LEED and Green Building services." – Anthony W. Ingrassia, President*
